

POSTGRADUATE STUDIES

BACHELOR OF ARTS HONOURS IN DESIGN

INSCAPE

COURSE INTRODUCTION

The BA Honours in Design degree **prepares students for further postgraduate studies as well as enhancing the depth of understanding** and skills that the student has in their specialist design discipline. **Over the past four years, 81% of graduates from the BA Honours in Design were employed** by the end of April in the following year. **Specialisations that would be considered are Interior Design, Environmental Design, Ideation Design, Fashion Design, Audio-Visual Design, Graphic Design, Interaction Design and User Experience Design.** The programme requires students to progress with their theoretical and practical understanding of their discipline, as well as the research techniques and approaches used in the discipline.

COURSE OVERVIEW

- **Students expand on their existing knowledge**, understanding and experience of design as a process and a way of thinking.
- **Refine and deepen their professional expertise** and upskill in the chosen specialisations.
- **Deepen specialist knowledge** through meaningful research and design projects with a global and local impact, benefiting the environment, society and the economy.
- **Apply design thinking to complex real-world challenges.**
- Students select from electives to consider design **in various contexts, including: sustainability, commercial design, user experience design, project management and online education instruction.**
- Students use design as an **integrated process that benefits from collaboration through incorporating interdisciplinary knowledge.**
- In the Service Design subject, group projects play a vital role as students collaborate with peers, stakeholders, and local communities in a sustainable, ethical and socially responsible manner.

FOCUS AREAS

- **Equips graduates for postgraduate studies at a master's level** by offering the chance to acquire knowledge of research methodologies, techniques, and their application in a design discipline capstone project.
- **Graduates can advance to higher level jobs in industry as they have advanced knowledge** and skills in their design discipline.

SUBJECTS

This qualification provides students with the competencies required to progress to more senior levels in a career in their design specialisation. Graduates may choose to embark on an academic career.

CONTACT LEARNING 1 YEAR

YEAR 1

- Research Methodology
- Applied Writing
- Design Innovation
- Service Design
- Research Dissertation
- Practical Portfolio
- Elective 1
- Elective 2

DISTANCE LEARNING 2 YEARS

YEAR 1

- Research Methodology
