PLEASE NOTE:

No brand names are mentioned. Better brands are usually more expensive, but they will make the learning experience easier and result in better quality projects. When making your purchases, please ask art shop assistants for good quality alternatives for students. Always consult with your lecturers for specific projects.

Sewing Machines: You will need a machine after the first few modules. There is no need to rush out and buy one now.

If you are unsure of whether you will continue a fashion design career purchase a less expensive entry level machine.

If however you feel that fashion will be a lifelong passion rather invest in a good quality domestic machine and overlocker /serger. There will be consumables that will remain an ongoing cost. Your lecturer will identify what materials are needed for each brief.
